Applications for funding/applications for accreditation: partner management and access to application forms

### IMPORTANT POINTS TO NOTE BEFORE YOU START

**Mandatory steps to be followed by ALL applicants (for funding and for accreditation)**

**EU LOGIN (PREVIOUSLY KNOWN AS ECAS) authentication**  
Access to all of the application options below is validated by EU LOGIN (PREVIOUSLY KNOWN AS ECAS), the European Commission's Authentication Service. Applicants must therefore have an EU LOGIN (PREVIOUSLY KNOWN AS ECAS) account. If you do not yet have an ECAS account, click [here](#) to be directed to the EU LOGIN (PREVIOUSLY KNOWN AS ECAS) website where you can create one.

**Organisation registration (PIC numbers)**  
All organisations that seek to be included as a participant in a funding application or wish to apply for an accreditation, must first have registered in EACEA's Participant Portal. The registration system assigns a unique Participant Identification Code (PIC) to each organisation. If an organisation does not have a PIC number, it cannot apply for funding or apply for an accreditation. Click [here](#) to be directed to EACEA's Participant Portal. Access to the portal is validated by EU LOGIN (PREVIOUSLY KNOWN AS ECAS) (see above).

**Points to be noted and respected by applicants for funding ONLY**

**Organisation profile**  
Some actions require a minimum number of participating organisations in order for the application to be considered eligible. Likewise, some actions require there to be representation from specific countries for the application to be considered eligible. Please carefully check whether any such rules apply to the funding opportunity you are applying under. If such rules do apply, you must respect those rules when building your list of participating organisations. If you have not respected the rules, you will receive an error message when the application eForm is created and you will have to start the entire process again.

**One uninterrupted session**  
When you proceed with either of the funding application options below, you will be guided through a series of steps resulting in the creation of a new or updated application eForm. These steps are fully described in the User Guide. Please note that these steps must be completed in one continuous session. It is not possible to interrupt the activity and resume it at a later time. If you close the browser window in which you are working or if you close the browser entirely, you will lose the data you have entered and will have to start again. Please therefore ensure you have all necessary PIC numbers AND have checked the rules for the organisation profile BEFORE YOU PROCEED.

#### Before you begin completing this eForm:

- Test your connection to the Agency's online submission service. Click on the 'Test your connection' button in the footer of the eForm. This is not to submit your form but merely to test that your software settings and internet connection allow an application to be submitted. If having clicked on this button, you do not receive a confirmation that your connection was successful, please consult the 'Known Issues' section of the eForm homepage. Here you can find, amongst other things, advice on internet settings and Adobe (Reader or Acrobat) security settings, either of which can prevent a successful connection to the Agency's online submission service. Please note that, if after performing a successful test, you move your eForm to a different computer or upgrade your version of Adobe Reader, you will need to perform the test again. This is because the original test result will no longer be valid. For a fuller description of how the 'Test your connection' function works please consult the eForm User Guide.

- Check that you have the latest available version of the eForm. In the event of a significant eForm problem arising, the Agency may decide to make available an updated i.e. corrected version of the eForm. The latest version number of each eForm is displayed on the eForm homepage whilst specific details of any problem and its impact would be published on the funding opportunity webpage of the programme concerned.

These resources and other useful links can be found in a table located at the end of this eForm.

| Describe the main academic subjects on which the EMJMD proposal has been built.<br><i>How relevant are they in the context of the academic discipline(s) field(s)? How will the EMJMD enhance the competitiveness of the targeted academic disciplines? What are the learning outcomes of the Master programme? What is new and innovative in the proposal compared to similar academic offers? How will the EMJMD contribute to university excellence in the European Higher Education Area (EHEA)? For consortia previously funded by the programme, explain how the current proposal spreads the benefits of joint/multiple degrees in a wider European context (via new partners for instance). How will the envisaged project results strengthen innovation and excellence in the HEIs involved, and strengthen the European higher education system in general vis-à-vis other regions and competitors in the education field? In which way does the proposal contribute to increasing the attractiveness and competitiveness of the European Higher Education Area?</i> |  |
